

## TM 4-STROKE 2006 IGNITION TIMING

Position between flywheel and pick-up when piston is:

250cc. - 8° (0.34 mm.) before T.D.C.

450cc. - 8° (0.40 mm.) before T.D.C.

530cc. - 8° (0.44 mm.) before T.D.C.

660cc. - 8° (0.50 mm.) before T.D.C.

If necessary, slightly move the pick-up to adjust. Check if the distance between pick-up and flywheel is correct.
